

## SnowDogg® VXF95II Snow Plow with RapidLink™ Attachment System

Buyers Part Number: VXF95IIR

Buyers Products SnowDogg VXFII Snow Plow gives commercial users a powerful and versatile v-blade with intuitive one-handed controls.

- Dual corrosion resistant 304 stainless steel moldboards never need paint. A robust frame spreads impact across the blades to reduce wear on vital components. • Full-length 2 in. cross tube • Heavy duty bottom channel • Four 1/4 in. laser-cut steel ribs per wing • 1/2 in. cutting edges
- SnowDogg Illuminator™ LED Headlights are brighter and longer lasting than traditional halogens. Active Defrosting Technology™ keeps the Illuminators ice-free even in the biting cold - a central heat source defrosts the entire lens evenly, preventing the streaking or banding that's common with other LED plow lights. SnowDogg HX High Intensity Halogens are also available.
- Mount and dismount in one minute or less with the new RapidLink™ Attachment System. • Center-mounted drop foot props up your plow on any surface with the pull of a handle • Hydraulically powered Jack Switch™ adjusts your plow's mounting height on the fly so it's easy to line up with your vehicle • Connects to your truck with a single driver side foot pedal
- The tubular steel Floating A-Frame features a sliding-pin connection so the plow contours the ground for a clean, efficient scrape. Outstanding performance at any mounting height.
- From the municipal style chain lift to the fully enclosed hydraulic power unit, the VXFII is built to endure whatever winter throws at you. • Powerful 2 in. lift cylinders • Over-sized 1-1/2 in. angle cylinders • Fully enclosed 2 HP hydraulic power unit • SAE standard cartridge valves and hefty 3/8 in. rubber hoses
- Double acting 1-3/4 in. angle cylinders make it easy to put snow where you want it. Back drag with confidence, even in tight spaces.
- Each wing has an independent 6 in. trip edge and two stress-optimized trip springs to protect your equipment from hidden curbs and obstacles without dumping the snow you're pushing.
- Intuitive in-cab controls are simple to use even with gloves on. The backlit, one-handed controller puts all plows functions, including angle, scoop, and V, in the palm of your hand. Other standard accessories: • Contoured plow snow deflector • Wire reinforced blade guides

## Specifications

<b>Angle Cylinders</b>	1 1/2 x 1 3/4 x 12"	<b>Angled Blade Width</b>	99.0"
<b>Blade Height</b>	29/37"	<b>Blade Width</b>	114"
<b>Cutting Edge</b>	1/2 x 6"	<b>Electrical</b>	Headlamp Rated Replaceable Micro-ISO Relays
